CONDITIONS OF SALE.

Please read Sale Terms Before Bidding.

This is a bona-fide public sale, for prompt cash settlement, and irresponsible persons who are not sure whether they can pay for what they bid on, are asked not to bid. The cataloguer has taken special pains to describe each lot accurately. Errors will be corrected, but he reserves the sole right to decide upon any claims. No corrections or refunds will be made, and no lots can be returned, unless the bidder submits his case in writing within 30 days of the date of the sale.

Coins and medals are sold at so much per PIECE, and no lot will be separated. You cannot buy a few pieces out of a lot but must buy all of it. The auctioneer will accept no bid under 10 cents to start a lot where that lot contains only one piece; nor will he accept any advance under 5c on any lot containing but one piece; after the price has reached \$2. no advance under 10c will be accepted on any lot containing one piece; after \$5.00 the bid must advance 25c each time; after \$10 no bid under 50c.

Our rules regarding lots containing more than one piece will remain unchanged and the same as before.

Auction sales are strictly for cash. Parties unknown to me and bidding for the first time, must give bank or other reliable reference, or their bids will not be executed.

Forward your bids as early as possible, as thousands of bids have to be entered. Do not make ridiculously low bids, such as 10c. and 15c. on foreign silver coins worth several times over as bullion. Write your bids plainly, with a pen if practicable.

Where the number of pieces in a lot is not given after the description there is but one piece in the lot.

Be sure you bid on the lot you wish to buy. We cannot correct such errors.

All coins, etc., are genuine unless otherwise described.

A charge of 5% will be made to cover packing but where the parcel is bulky an additional packing charge will be made. No charge made for bidding except for lots actually purchased. Remit by money order or New York draft.

If any further information is required as to valuation of lots, or how to bid, please write the cataloguer, THOMAS L. ELDER.

Important Notice. We keep two books of the sale recording each lot as sold, and we will not accept any sale records from outsiders. Our records are final.

SEND YOUR BIDS DIRECT TO US.

To ensure your getting your bids for this sale properly executed to the best advantage of our customers they should be sent to us and not to agents, who have special friends and clients to serve. We enter and execute all bids in an absolutely unbiased manner, and attempt to buy the lots for the lowest bids possible. We reserve the right to reject bids made by agents who do not comply with our printed sale terms. Don't take chances with outsiders, but send bids to us direct, feeling confident we will serve your interests to the very best of our ability.

THE E. H. ADAMS PATTERN COLLECTION.

Mr. E. H. Adams, author of the well-known work on U. S. Pattern Coins, has been ill, but is on the way to recovery. We feel honored to offer in this catalog his very fine pattern collection, which contains many United States Pattern coins not offered in years and which we have never offered before at auction. Take full advantage of this magnificent offering, which is made entirely without strings or limit. We have never had so many patterns, nor nearly so many, in any auction sale we have held in the last 32 years. These Patterns are outstanding features of this sale, which should attract wide attention. It is the largest collection ever offered.

NEW BIDDERS PLEASE READ.

In order to assist new bidders Mr. Elder will gladly furnish an estimate on the value of any lot in this fine and varied sale. Write him at any time. Send in bids early.

The Lots are sold so much per piece except stamps, which are sold by the entire lot. If a lot of ten pieces sells for \$1, it means you pay \$10 for the entire lot.

Go over your bid sheet after entering bids to make certain you are on the right lot. We will not be responsible for errors in bidding. Persons unknown to us, as to credit, must send remittance on receipt of bill, and entire strangers should send with their bids a deposit of 20 % or 25 % of the total of their bids to ensure getting bids executed. You pay nothing unless you buy something, and any remittances unused will be promptly returned after the sale.

Lots are not on approval. We reserve the right to decide on the merits of any claim. Also, as we pay all consignors within 30 days of sale, no returns will be allowed, for any reason whatsoever, after 30 days.

We start our season with a magnificent sale of three sessions. You surely can find some lots in this catalog to interest you. Other very important Elder sales are coming during the Spring season of 1935. Keep posted by getting a priced catalog of each sale we hold. Errors must be corrected before coins are taken from the desk.

RARE COINS A SPLENDID INVESTMENT.

In times of stress, when people having saved up a little money, turn thoughts towards a safe place to invest the same, they should not overlook some facts about Rare Coins and Paper Money. Coins, durable, imperishable, have always been considered the last word in value and stability. In numerous instances coin values have greatly increased through the years. This enhancement in value differs with the classes of coins. Some of the more recently struck pieces, favorites with new collectors, have doubled in price the last two or three years. Of these let us mention the U. S. minor coins. No difference whether we are on a gold or silver basis here, coins will always have a value to collectors; and there will always be plenty of collectors. Collecting enriches life and adds to human happiness. Even communist governments allow collecting, and that is going some, for they allow little else of human liberty. Get your coins while getting is good. Remember, the German coin dealer who held his coins and refused to sell during the wild inflation there, came out on top. The others who sold on what they construed to be rapidly rising prices lost all they had in the world. Collect coins and be happy! You will at least have money, while some others may be hunting will-o-the-wisps.

KEEP POSTED ON SALE PRICES—GET A PRICED CATALOG.

We have inaugurated a new system and furnish after each sale a complete printed list telling what every lot in a sale brings. Our charges for these lists are 60c for a two-day's sale, 85c for a three-day's sale and \$1.00 for a four-session sale. In this way you keep right up to the minute and know what coins and paper money, as well as curios, relics, stamps, etc. are bringing at auction. It may result in the elimination of a lot of foolish bids. Prices change with the times and conditions. The lists are expensive to us and cheap to bidders. We sold over 80 priced lists of our last sale and made hardly anything on the proposition. It is your gain to know what coins sell for. We still have a few priced lists and catalogs of our last sale left for only 60c. Be sure and send 85c either stamps or cash, for a list, giving what each lot brings in this sale and the total realized for the whole sale. Don't miss it. You cannot afford to. Send us 85 cents today.
